About Us

Humanim is committed to supporting and empowering individuals who face social or economic challenges, by building pathways to economic equity, opportunity, and independence. Our Behavioral Health Department serves individuals struggling with mental illness and substance use disorders, and has for over 40 years. We embrace a person-centered recovery culture that empowers individuals to learn from their mistakes and successes and follow their own life's plan. Like all of Humanim's programs and services, our focus is on individualized care and self-empowerment.

Evidence Based Supported Employment

Humanim's Evidence Based Supported Employment (EBSE) program provides person-centered employment services to individuals with severe and chronic mental illness who want to work. Employment can be an essential part of the recovery process, and more than twenty years of research shows that EBSE is the most successful vocational model for individuals with mental illness.

Our EBSE services focus on working collaboratively with clients, providers, and family members to support clients in finding and maintaining competitive employment that meets their individual skills and preferences.

Services include:

- Individualized job development and job search support, including the application and interviewing process, hiring, and onboarding
- Individualized job support, including assistance with new hire training, assistance with requesting job accommodations
- Employer supports, including education on hiring individuals with disabilities, assistance with tax incentives, and employee/employer advocacy
- Individualized benefits counseling

Eligibility:

- Must have a DSM diagnosis that meets "priority population"
- Must be at least 16 years old
- Must receive Medical Assistance (Medicaid) or meet financial eligibility
