

iHOMES

iHomes is a private non-profit community housing development organization (CHDO) providing long term, affordable housing options to low-income individuals who have been diagnosed with a developmental and/or psychiatric disability. Founded in 2010 by Humanim, iHomes' mission is to provide stable, decent housing for low income individuals with disabilities within the community in which they work, as well as increased access to residential supports.

iHomes acts as a developer, property manager, and leasing agent but partners with other community organizations to provide support services for its residents. The type, frequency and provider of supports are driven by the individual tenant, but may include employment supports, daily living skills, transportation, budgeting, and community resource linkage.

SERVICES

- Affordable Housing Development
- Individual Leasing and Property Management
- Support Services through Humanim and/or other community organizations, according to residents' preference

DID YOU KNOW?

iHomes is creating sustainable housing through new innovative affordable housing models. New iHomes properties are Zero Energy homes, designed and built to reduce household energy needs to a minimum and include on site renewable energy systems, so that the house may produce as much energy as it consumes on a yearly basis.

ABOUT HUMANIM

Humanim is committed to supporting and empowering individuals who face social or economic challenges, by building pathways to economic equity, opportunity and independence. Our Human Services division serves individuals with developmental disabilities and behavioral health challenges, and has for almost fifty years. Our person-centered approach emphasizes individualized support, community integration and customized employment, with the goal of empowering individuals to achieve both personal and economic independence.
