

# My Child Just Received a Diagnosis of Autism, Now What?!

## FREE Virtual and In-Person Informational Session for Parents and Caregivers

For many parents, receiving a diagnosis of Autism Spectrum Disorder (ASD) for their young child can be scary and overwhelming. Our FREE informational sessions will teach parents and caregivers how to navigate the process of obtaining services for their children, ages 1-6, who were recently diagnosed with ASD. We'll explain the different therapies and resources available, as well as answer questions.

### Kristen Colyer, Director of Children's Services

Kristen Colyer is a Board-Certified Behavior Analyst (BCBA) who has worked with children and adults in the Human Service and Education Fields for over 30 years. Kristen obtained her undergraduate and master's degree at Western Maryland College (McDaniel College), her BCBA course work at The University of North Texas and is currently working towards a PhD from The Chicago School of Professional Psychology. She is the Director of Children's Services for the Infinity Center for Behavior Services in Carroll and Harford Counties.

### About The Infinity Center

The Infinity Center for Behavior Services is an early intervention center that provides therapy based in Applied Behavior Analysis for children, ages 1-6, diagnosed with autism spectrum disorder. We work together with children and families to ensure they meet early learning milestones essential to each child's development.
