

# New Service Offering: Document Management Software

## Do you face the following challenges?

- Physical space filled with boxes
- Slow retrieval times for document searches
- Remote work needs
- Forms development
- Data security concerns
- Unstructured paper mail
- Different internal systems
- Manual workflows

## iScan can help! We are a full-service, one-stop shop for your document storage and retrieval needs.

## And Now, Document Storage Software & Workflow Automation

through our Partner Status with  DocuWare

- Cloud storage & retrieval
- Forms development
- Automated workflows
- Mobile access

### How It Works

DocuWare collects your documents into one secure and organized archive. Route documents through workflows, utilize search, and integrate seamlessly with other applications. All of this from within a fast, browser-based interface.

## Get Started Today

Our experts can capture your business requirements to establish a secure document management system (DMS) and workflow solution to improve efficiencies and cut down on costs in your organization. **Get in touch!**
